PHILOSOPHY

PCOM preschool recognizes each child as a unique gift from God and emphasizes the development of the whole child in a loving, Christ-centered educational environment.

At PCOM preschool, our renowned developmental curriculum provides a balanced approach to education that meets the cognitive, social, emotional, physical and spiritual needs for children who are 3, 4 and 5 years old.

Included are invitation centers in art, music, science, math, literature, dramatic play and cooking, providing unique opportunities to learn and grow.

We have an excellent child to teacher ratio of 8:1, with a max of 16 per class.

We foster self-confidence based on God's love for each child, facilitating a successful transition from the child's home learning environment to their new preschool learning environment.
